MASSACHUSETTS

Panelists

Dr. J. William Stubblefield

Bill Stubblefield has pursued a lifelong interest in ecology and evolution with a PhD in Biology from Harvard University. Over the last few years, he has focused on the potential of natural solutions to the multiple planetary crises we now face, especially the potential of forests to accumulate carbon and preserve biodiversity. Bill is a long-time advocate in the Massachusetts Sierra Club Forest Protection Team.

Dr. Susan A. Masino

Susan A. Masino, Ph.D. is the Paul E. Raether Distinguished Professor of Applied Science at Trinity College in Hartford Connecticut. Her research and her work in the community is focused on brain health and disease, natural processes and the ecological value of forests, and science-based, common-sense strategies for local and global wellbeing.
